Many Steps Behind Us More Yet To Come

The Arrow staff pauses to reflect on the many gratifying memories of this past year at C.C.H.S. It is with satisfaction that the class of 1968 presents this annual--not only as a record of 1968--but as a permanent and lasting treasury of the golden moments of our high school years.

Administration

— Our Banister —

The 1968 C.C.H.S. administration, the banister of our stairsteps through the past twelve years, has helped the students in many ways: the teachers, by conveying their knowledge to the students; the principal, by stressing fair play and good conduct; the coach, by encouraging good sportsmanship; and the superintendent and school board, by promoting the welfare of the school. By aiding the school with these numerous services, they have enabled Cape Charles High to attain its high standards educationally, athletically, and morally.

Mr. Carl R. Kane

Mr. Kane has devoted much of his time to the improvement of Cape Charles High School. The students and teachers have benefitted greatly from his outstanding accomplishments as . . .

Classes

Step By Step We Grow

Each year we better our minds, characters, and bodies. Knowledge comes in steps as do the personal qualities and physical fitness of a student. These past years, we climbed many steps towards our goals in life.

The first step for the eighth grade is a major step, one of excitement and sometimes confusion.

For the freshmen the year is full of the thrills of just being a freshman, and experiencing new and different subjects.

The sophomores are making another step in the right direction.

The juniors find schoolwork more meaningful as they begin to make plans for the future.

The seniors reach the culmination of the five classes of high school, with mixed emotions.

No single step is functional without the others, but they all fit together.

Seniors

1968

We, the Senior class of 1968, have come a long way. Through the guidance and influence of our teachers and friends we have reached our present heights, hoping that we are prepared for any future situation.

Cape Charles High School has been a place of many memorable experiences. These twelve short years have sped by leaving us saddened at the thought that such a predominate part of our life has almost escaped us. Only in our deepest inner memories will we hear the ol' bell ring---will we see the faces of our classmates working together---will we wish it wasn't over.

•As we leave, we hope we have been influential on our underclassmen; we hope we have helped to make C. C. H. S. a better school.

Cape Charles High School, we have walked through your halls these past years---now we ask for your training to walk with us as we depart.

Juniors

Mend Their Speech In English Class.

We, the Juniors of 1968, took on the responsibility, along with the Seniors, of setting the mature example for the younger students. Participating in sports, in school activities and other organizations, and playing a big role in preparing the '69 "Arrow" were some of the activities we enjoyed. The highlight of our year came when on Dec. 15 our class rings arrived.

To our teachers we wish to thank them for their expert guidance in the past and this year also. We sincerely hope that our hard work and perseverance to become the Seniors of 1969 has set a good example to other classes. Until that day in June of '69, we shall endeavor to better ourselves for the future.

Full-O'- Fun

The Sophomores of '68 have found this year lively and fulfilling with its varied activities. All of us were enrolled in Biology which was a challenge for us. English skits enlivened our class, making the work more interesting and meaningful. Many of us took commercial subjects and engaged in sports. With great determination we look forward to success in our Junior year.

Freshmen! That sounds great! Not seventh grade or eighth grade, but Freshmen! At last we are important enough to have a name. This year has been fun for most, even though it has been harder than before. Some of us participated in band; a few of us "enjoyed" biology experiments such as dissecting; others have become important football prospects. Many of us have acquired a new and different smattering of French. But how we have struggled through our merciless exams and are looking forward to a wonderful year as Sophomores.

Activities

Steps Of Participation

Through the various activities at CCHS, many highly desired traits and qualities are developed, preparing one for the future. The advantages of activities in a school are great; perhaps the most important of these would be leadership. In addition, cooperation is vital. There is also the challenge, to excel, the chance to participate in a group, and the opportunity to improve mentally through such organizations. Thus the activities of a school help the students climb another step in the winding stairway of knowledge.

Honor Society — Goals To Be Proud Of

Honor Society holds joint installation and induction service.

NOBLISSE OBLIGE

The Sarah W. Doughty Chapter of the National Honor Society is proud of the goals which a student must attain before membership. These goals - leadership, scholarship, character, and service - are tough only for those who are unwilling to work constantly for them. Attaining these goals will make members better men and women.

In the spring of the 1966-67 session the Honor Society sponsored a week-long program to promote better scholarship in the school. During the week Shirley Russell and Demetra Bradford read "Thoughts to Live by" over the intercom. At a special service Susan Curling and Steven Lewis were inducted as provisional members. Parents and teachers were invited to this service and to see the installation of new officers for 1967-68.

An Annual In The Making

In the making of an annual are many things: worries, relief; uncertainty, confidence; formidable deadlines, safely passed deadlines; disappointments, satisfaction; and disagreements, unanimous consent. In the finished annual are the lasting memories of these things.

Through work and creativity, Seniors produce annual pages.

Sports

Steps Toward A Wholesome Education

Sports at CCHS have always maintained a high degree of excellence, and a winning team is usually produced. Yet winning is not the only objective of a team's efforts. Good sportsmanship and the growth of individuality, as well as learning to work together as one, are desirable goals. The development of physical fitness is a major part of athletics. One's mental power can be increased by sports also, through quick decisions, the following of directions, and the ability to be a good loser. Thereby the body and the mind, together, advance on the steps of knowledge.

Oliver strains to block a shot.

This season the Indians won the Group III season championship with an 8-2 record. Even though they lost out in the tournament for Shore championship, the team learned to accept defeat as well as victory. Throughout the year everyone on the team displayed a high degree of sportmanship. This season was a pleasure for Mr. Kane as well as the players and will long be remembered by all.

Two more points for Tommy as he drives in for an easy layup.

E. P. tries to intercept a pass.

Indians Capture Fourth Place In District Meet

Track in 1967 showed much enthusiasm from participants as well as Coach Kane. The Indians participated only in Eastern Shore meets. In the district meet at Atlantic, the Indians garnered 171/2 pts. to finish fourth. In addition, two of the team members, Steve Lewis and W. K. Latimer, represented the school in the State Track meet in Charlottesville.

Ronnie Lewis, Senior captain of the 1967 team, was voted by his team members as the most valuable member of the year. It was Ronnie's fourth year as the team's leading mile and half mile runner.

With the future brighter than ever, track is on the upswing at C.C.H.S.

(Left) W. K. Latimer and Steve Lewis broke school records in their respective events in 1967. W. K. in the 120 yd. high hurdles (17.9), and Steve in the 100 and 220 yd. dashes (10.3 and 23.0). Here they discuss past meets and the future team of '68.

The 1967 Indians gained character, poise, and sportsmanship during the baseball season. Although they did not win the championship, they did win experience while having fun playing one of America's favorite sports. They are looking forward to the 1968 season with anticipation.

Elementary

Climbing Upward

Starting on the bottom step, the elementary classes begin their stairway to education. The first grade begins step by step -grade by grade. They grow in mind and body, increasing their understanding and foresight with each passing day, with high school days always their goal, just a step away.

Upon entering high school, they have acquired the basic fundamentals for furthering their education. In this way the elementary is the basic step toward learning.

A Step In Salesmanship

Advertisements, a step which is thought of lightly perhaps, yet by far the least important, can help one in gaining many benefits for future work in life. Having worked in advertisements, one is familiar with and may have acquired the art of salesmanship. In procuring advertisements, one must meet the public, and thus develop a friendly disposition and pleasing attitudes. One learns to accept defeat in his transactions, as well as success. While securing ads, one learns to keep accurate records and procedures in business management. Thereby a fundamental step in salesmanship is climbed, which could be of great value later in life.

Inn Keeper: JOHN BURLESON

from "A Psalm of Life"

Lives of great men all remind us
We can make our lives sublime,
And, departing, leave behind us
Footprints on the sands of time.

Footprints, that perhaps another,
Sailing o'er life's solemn main,
A forlorn and shipwrecked brother,
Seeing, shall take heart again.

Let us then be up and doing,
With a heart for any fate;
Still achieving, still pursuing,
Learn to labor and to wait.
Longfellow
